# ORDERING PARTS

The parts list showing all the parts used in the machine is included in this book. Check the list, and specify parts numbers and quantities required clearly. Send your order to the nearest agent, distributor or one of our branch offices.

1. Description of each part and its stamp number is described in this parts list. Screws and nuts for parts are shown adjacent to the relevant parts. When ordering parts, describe clearly stamp number with its name of part.
2. The parts which have no Ref. Number can not be delivered independently; always order it as an assembly.
3. A set of assembled parts is represented by the stamp number of its main parts.
4. The last figure in the parts stamp number advances on each improvement of the parts.

\*The part list is subject to change without prior notice.
